

It's 2 In The Morning.
Do You Know What
Your Water Heater Is Doing?

INTRODUCING **iCOMM™**

An Interactive Remote Monitoring System By A. O. Smith

Now you can manage and monitor your facility's water heaters or boilers from anywhere in the world via the Internet, thanks to *iCOMM™*, the latest technology in commercial water heating. *iCOMM* is

designed to alert you—via text message or e-mail—about any potential problems related to your facility's hot water operation, helping you avoid lengthy and costly interruptions in service.

⊙ Remote monitoring

⊙ Allows BacNet connection

⊙ Leak detection and other fault alerts are sent via text message or e-mail

Visit www.aosmithconnect.com or call 888-WATER02 for more information.
