WHY A.O. SMITH?

Every water heater that carries the A. O. Smith name has a reputation to live up to, one that we’ve earned through more than 140 years of innovation. To continue to lead our industry, we constantly look for new materials and develop new technologies that can improve energy efficiency, perform better, and make our customers’ lives easier. So, when you choose an A. O. Smith residential water heater, whether it’s gas, electric, hybrid or tankless, you can be confident that you are getting the best water heating solution regardless of the application—for today and for years to come.

COMMERCIAL-GRADE COMPONENTS

BLUE DIAMOND® GLASS COATING
A patented commercial-grade formula that provides superior tank protection and corrosion resistance compared to the industry standard glass lining. Blue Diamond glass coating blend is formulated in the same lab that creates the protection for our industry-leading commercial product line. Through our long history, we’ve learned that one size rarely fits all. That’s why we customize our signature formula to best meet the needs of every water heater we produce, ensuring long life no matter which A. O. Smith model you choose.

ENHANCED-FLOW BRASS DRAIN VALVE
Our residential water heaters have a solid brass, tamper resistant, enhanced flow, ball type, drain valve. Designed for easy operation, it uses a standard female hose fitting that allows for fast and easy draining during maintenance. The valve also includes an integral screwdriver slot featuring a 1/4 turn (open/close) radius, which not only permits full straight through water flow but also a quick and positive shut off.

SELF-CLEANING DIP TUBES
PEX cross-linked polymer dip tubes are long-lasting with superior resistance to destructive thermal deterioration and can withstand temperature excursions up to 400 degrees. PEX is the same material used in dip tubes found in our industry-leading commercial product line.

HEAT TRAP NIPPLES
Helps mitigate standby heat loss by reducing the amount of heat lost through the connected pipes. Factory-installed for faster installation.

COREGARD™ ANODE ROD
Feature a stainless steel center core that allows the anode to be secured in place, extending the life of the tank. Stainless steel core technology is the same that is used in our industry-leading commercial product line. ProLine® Master products have increased anode protection with either longer or multiple anodes, depending on model.

SELF-POWERED ELECTRONIC GAS VALVE
A. O. Smith gas water heaters are equipped with a self-powered electronic gas valve with intelligent control logic. The gas valve has an internal microprocessor that provides enhanced operating parameters and tighter differentials for precise sensing and faster heating response to optimize performance. The self-powered electronic gas valve uses a thermopile to generate the power needed to operate the electronic gas control without requiring an external power source. It also incorporates an LED Status Indicator that monitors system operation and service diagnostics.

COMMERCIAL-GRADE ELECTRIC ELEMENTS
ProLine® Master electric products are outfitted with longer-lasting stainless steel upper and lower elements that are modeled after those used in our industry-leading commercial line.
RESIDENTIAL WATER HEATER SELECTION GUIDE

SIMPLE TANK TYPE SIZING

1 Determine whether your family is low demand or high demand. You should consider your family to be high demand if...
   • There are more than two full baths in the home.
   • There are (or will be) teenagers living in the home. It’s a fact: teenagers use more hot water for showering and washing clothes.
   • You have an oversize whirlpool bath or other large tub. As a rule of thumb, the water heater tank capacity should be 100% of the bathtub capacity (example: 75-gallon tub/75-gallon water heater).

2 Locate your family size and determine the first hour rating requirement for your family. If you decide your family is high demand, consider moving up to the next first hour rating level.

3 Consult the heater options on the following pages for an A. O. Smith residential water heater with a first hour rating that meets your requirements.

To select the right A. O. Smith water heater, consider the size of your family and other factors that contribute to your First Hour Rating (FHR) Requirement. This chart provides suggested A. O. Smith residential water heater selection guidelines for several family sizes.

TANKLESS MODELS
GROUND WATER TEMPERATURE FACTOR

The temperature of incoming ground water (cold water inlet temperature) varies greatly throughout the U.S. and also fluctuates with the changing of the seasons. The temperature of water as it enters the water heater will determine the amount of “temperature rise” required to achieve the desired hot water outlet temperature (120°F is recommended).

The best way to measure incoming ground water temperature is to use a thermometer to measure cold water temperature during the coldest season of the year. To simplify the process, use this map to determine whether your installation location is in the Southern Zone, Central Zone or Northern Zone.

PEAK HOT WATER DEMAND

The next step is to determine how many gallons per minute of hot water will be required during the busiest usage period (peak demand). Consider all appliances and fixtures that use hot water, including lavatory faucets, kitchen faucets, washing machines, dishwashers, showers and bathtubs. Be sure to determine how many appliances and fixtures will be used at the same time (peak demand).

Remember, these are general recommendations. Your A. O. Smith Water Heater Specialist can review your family’s needs in even greater detail to make sure the model you choose will always provide enough hot water to meet the demand.
EARN POINTS BY PURCHASING A. O. SMITH WATER HEATERS

It’s free and easy to participate. Enroll online at contractorrewards.com. Eligible products will have a yellow reward code label worth valuable points. Two ways to enter the codes:

1. Download the Contractor Rewards mobile app and scan the code.
2. Enter the code at contractorrewards.com. Redeem your points on thousands of reward items.

With over 1,000,000 merchandise items, your reward choices are endless.

A. O. SMITH PROVIDES 6 KEY THINGS TO HELP GROW YOUR BUSINESS AND BECOME MORE PROFITABLE

1. Contractor Locator
   An online locator that drives thousands of consumers from our website right to our loyal contractors. Your company listing is free and generated for you when you participate in our Contractor Rewards™ program.* Visit hotwater.com/contractorlocator for more information.

2. Contractor Rewards Program
   Our program rewards our loyal contractors for buying our products. Buy more and get rewarded with prizes and higher status on our Contractor Locator.

3. Contractor Advertising Tools
   Our Advertising Resource Center allows contractors to develop an easy, affordable and custom advertising campaign to promote their business. Go to www.hotwater.com/ads.

4. Breadth of Product Line
   Residential or Commercial, we have the most complete line from standard models to the most innovative high efficiency water heaters available.

5. Product Sales Tools
   We provide contractors access to the sales tools needed to close more sales.

6. Brand Support
   Marketing investment in our brands drive consumers to recognize our name, visit our websites, locate local contractors and request products.

*To be listed on the Contractor Locator you must meet the minimum threshold of codes entered at contractorrewards.com

Visit hotwater.com/contractor to learn more.

- Blue Diamond® Glass Coating
- DynaClean™ Automatic Sediment-Cleaning System
- Self-Powered Electronic Gas Valve
- Heat Trap Nipples
- Enhanced Flow Brass Drain Valve
- CoreGard™ Advanced Anode Rod Protection
- ENERGY STAR® Qualified*
- Electronic User Interface*
- Over 90% Condensing Efficiency*
- Best In Class Material and Technology
- Industry Leading Efficiency
- Multiple Venting Options

*Select Heat Pump Water Heater models only.
Hot Water Output, Cost of Operation, & Installation Space Required estimated based on typical applications/installations.
For a more custom analysis of unique installations, visit hotwater.com and use our product selector tool.
ENERGY STAR® QUALIFIED
• All models meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.

Condensing Design
• Helical internal heat exchanger keeps hot combustion gases in the tank longer to extract more heat into the water.
• High efficiency operation with 0.88 UEF (94% Thermal Efficiency) which saves money on operating costs compared to a standard efficiency gas water heater.

Power Vent Design for Installation Versatility
• Power vent using PVC, CPVC, ABS or Polypropylene either thru-the-wall or thru-the-roof.

Side-Mounted Taps for Recirculating Systems
• Hot and cold "side taps" allow Vertex Power Vent to be used for combination space/water heating applications.

Intelli-vent™ Gas Control with Silicon Nitride Hot Surface Ignitor
• Premium-grade hot surface ignitor eliminates standing pilot.
• Electronic circuitry provides superior system diagnostics capabilities plus extremely precise temperature control.

Blue Diamond® Glass Coating with Two Heavy Duty Anode Rods
• Provides superior corrosion resistance compared to the industry-standard glass lining.

Green Choice® Gas Burner
• Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

Dynaclean™ Diffuser Dip Tube

Code Compliance
• Meets IBC and ICC National Codes.
• Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

6-Year Limited Tank and Parts Warranty
• For complete information, consult written warranty or go to hotwater.com.

*Intelli-Vent™ is a registered trademark of Emerson Electric Company

Available in natural gas only.
Standard model certified for sea level to 5,300 ft. elevation. Special models available for elevations up to 10,100 ft.
Optional Condensate Neutralizer Kit available (part number 100112380).
ENERGY STAR® QUALIFIED
• All models meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.

Advanced Electronic Control
• Exclusive A. O. Smith designed touch display control system.
• Precise temperature control.
• Advanced diagnostics.
• Built-in diagnostics and operational information.

Condensing Design
• Helical internal heat exchanger keeps hot combustion gases in the tank longer to extract more heat into the water.
• High efficiency operation with up to 0.88 UEF (96% Thermal Efficiency) which saves money on operating costs compared to a standard efficiency gas water heater.

Helical Internal Heat Exchanger
• Spiral heat exchanger keeps hot combustion gases in the tank longer to lengthen the heat transfer cycle.

Power Direct Vent Design
• Power Direct vent using PVC, CPVC or Polypropylene either thru-the-wall or thru-the-roof.
• Optional concentric vent and low profile termination kits are available.

Ultra-Low NOx
• Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Side-Mounted Taps for Recirculating Systems
• Hot and cold “side taps” allow Vertex Power Direct Vent to be used for combination space/water heating applications.

Code Compliance
• Meets IBC and ICC National Codes.
• Meets the efficiency requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.

6-Year Limited Tank and Parts Warranty
• For complete information, consult written warranty or go to hotwater.com.

Available in propane (LP) gas. Specify when ordering propane (LP) gas.
Models certified for sea level to 10,100 ft. elevation.
Optional Condensate Neutralizer Kit available (part number 100112380).
POLARIS® HIGH EFFICIENCY

ENERGY STAR® QUALIFIED
Stainless Steel Construction
• Tank and helical heat exchanger are constructed from 444 stainless steel for excellent corrosion resistance without the need for an anode.

Condensing Design
• Helical internal heat exchanger keeps hot combustion gases in the tank longer to extract more heat into the water.
• High efficiency operation with up to 0.90 UEF (96% Thermal Efficiency) which saves money on operating costs compared to a standard efficiency gas water heater.
• Modulating burner maintains high efficiency operation at lower input rates.

Power Direct Vent Design
• Direct vent using PVC, CPVC or Polypropylene either thru-the-wall or thru-the-roof.
• Optional concentric vent kit

Quiet Operation
• Quiet blower and burner minimize noise.

Advanced Electronic Control
• Exclusive A. O. Smith designed touch display control system.
• Precise temperature control.
• Built-in diagnostics and operational information.

Ultra-Low NOx
• Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Code Compliance
• Meets IBC and ICC National Codes.
• Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.

Available in Propane (LP) gas. Specify when ordering Propane (LP) gas. Models certified for sea level to 7,700 ft. elevation.
ENERGY STAR® Qualified
- All models (except GPVX 75L) meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.
- Built-in heat traps
- Water inlet and outlet reduce the amount of heat lost through piping

Versatile Power Vent Design
- All models feature an exclusive 3-position rotatable blower outlet which adds flexibility.
- Combined horizontal and vertical vent runs up to 180 equivalent feet with 4” diameter venting (ABS, PVC, CPVC and polypropylene).

Quiet and Efficient Blower
- Factory-installed 6-foot power cord with standard 3-prong male connector provided.
- Electrical requirements; 110/120 VAC power source, less than 5 amp draw.

Hot-surface Ignitor
- More robust and reliable than standing pilot, and reduces energy consumption

User-Friendly
- State-of-the-art electronic gas control provides more precise temperature control.
- LED control light displays operation status and diagnostics information.

Enhanced-Flow Brass Drain Valve

Available in Natural Gas and Propane

Design-Certified by CSA Group
- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 or ANSI Z21.10.3-CSA 4.3 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty
- For complete information, consult written warranty or go to hotwater.com.

All models are certified from sea level to 10,100 ft. elevation.

† GPVX-75 is not ENERGY STAR® Qualified.
PROLINE® XE HIGH EFFICIENCY NON-CONDENSING FLUE DAMPER

ENERGY STAR® Qualified
• All models meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.

Green Choice® Gas Burner
• Patented eco-friendly burner design reduces NOx emissions up to 33% and complies with Low-NOx emission requirements of 40 ng/J.

DynaClean™ Diffuser Dip Tube

CoreGard™ Anode Rod

Requires 120V Power
• Power cord with standard 3-prong male connector provided.
• Electrical requirements; 110/120 VAC power source, less than 5 amp draw.

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

Code Compliance
• Meets IBC, CEC, and HUD (excluding mobile homes) National Codes.
• Meets the efficiency requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

Design-Certified by CSA Group
• Certified at 300 psi test pressure and 150 psi working pressure.
• Listed according to ANSI Z21.10.1 – CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty
• For complete information, consult written warranty or go to hotwater.com.

Water connection is 3/4” on all models.
All models are certified from sea level to 10,100 ft. elevation.
PROLINE® XE HIGH EFFICIENCY NON-CONDENSING ULTRA-LOW NOx FLUE DAMPER

ENERGY STAR® Efficiency
- All models meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.

Green Choice® Gas Burner
- Enhanced Ultra-Low NOx burner complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NOx emissions of less than 10ng/J.

Electronic Gas Control

DynaClean™ Diffuser Dip Tube

CoreGard™ Anode Rod

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

Requires 120V Power; 19.5 foot power cord with standard 3-prong male connector provided.

Electrical requirements; 110/120 VAC power source, less than 5 amp draw.

Code Compliance
- Meets IBC, CEC, and HUD (excluding mobile homes) National Codes.

Design-Certified by CSA Group
- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1 – CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty
- For complete information, consult written warranty or go to hotwater.com.

Requires 120VAC power supply located within 19ft of the heater.
Water connection is 3/4” on all models.
Standard top T&P, specify when ordering side T&P.
All models are certified from sea level to 7,800ft elevation.
PROLINE® XE HIGH EFFICIENCY NON-CONDENSING ULTRA-LOW NOx POWER VENT

Power Venting Made Simple
- Thru-the-wall or thru-the-roof power venting using either 2” or 3” PVC, ABS or CPVC vent pipe.

Intelli-Vent™ Gas Control
- Advanced electronics for more precise control of water temperature and easy to understand system diagnostics.

Combination Thermostat/ECO
- Utilizes an intermittent ignition gas valve (no standing pilot) with thermistor temperature sensor and built-in high temperature cut off.

Quiet and Efficient Blower
- Factory-installed 6-foot power cord with standard 3-prong male connector provided. Electrical requirements; 110/120 VAC power source, less than 5 amp draw.

Dynaclean™ Diffuser Dip Tube
- Reduces lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

Coregard™ Anode Rod

Durable, Ultra-Low NOx Burner Construction

Enhanced-Flow Brass Drain Valve

Code Compliance
- Meets IBC, CEC and HUD National Codes.

Design-Certified by CSA Group
- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type gas water heaters.

Dual-channel system has 3” vent pipe inside 6” air intake pipe, for the 40 and 50-gallon models.
All models have 2" foam cavity.
Water connection is 3/4" male on all models.
40 and 50 gallon models are 8” on center.
Allow 29-1/2” for front to back dimension for gas control and air intake pipe at the rear of the heater.
All models are available in propane (LP) gas (series 301).
All models are certified from sea level to 7,700 ft. elevation.
All models available with side connections. Add “L” to the model number, example GDV-40L.
Water connection is ¾” on all models.

* For optional side-mounted recirculating taps, add “L” to the suffix (example: GCR-40L).

† Models ship with supplied insulation blanket.

For 10-year tank and 10-year parts warranty, change “G” to “X” in model number (example: XCR-30).

‡ LP models not available on GCRH-40.

All models approved for installation from sea level to 10,100 ft. elevation.

All models ship from the factory for use with natural gas, a complete propane burner is supplied for converting to propane gas. No option available for top T&P.
Water connections-3/4” on all models.
All models approved for installation from sea level to 5,400 ft. elevation.
### PROLINE® ULTRA-LOW NOx

#### Intelligent Control Logic
- The electronic gas control incorporates an LED status indicator that monitors system operation and service diagnostics.

#### High Uniform Energy Factors (UEF)
- Eco-Friendly non-CFC foam insulation, external heat traps and specially designed combustion chamber combine to produce a high UEF for maximum savings on operating costs.

#### Green Choice® Gas Burner
- Enhanced Ultra-Low NOx burner complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NOx emissions of less than 10 ng/J.

#### Dynaclean™ Diffuser Dip Tube

#### Coregard™ Anode Rod

#### Push-Button Piezo Ignitor

#### Heat Trap Nipples

#### Blue Diamond® Glass Coating

#### Enhanced-Flow Brass Drain Valve

#### Code Compliance
- Meets UBC, CEC and HUD National Codes.

#### Design-Certified by CSA Group
- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type gas water heaters.

#### 6-Year Limited Tank and Parts Warranty
- For complete information, consult written warranty or go to hotwater.com.

All models may be ordered from the factory with top T&P. Side loop connections are standard on model (GURT-50L). All models approved for installation from sea level to 10,100 ft. elevation.
**PROLINE® ULTRA-LOW NOx DIRECT VENT**

Flammable Vapor Resistant/Direct Vent Sealed Combustion System

Durable, Ultra-Low NOx Burner Construction

Non-CFC Foam Insulation
  - The tank is surrounded by a thick coat of non-CFC polyurethane foam to trap heat inside the tank, saving energy.

3/4” Top Water Connections and Side Space Heating Connections

1/2” Gas Connection

Coregard™ Anode Rod

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

Green Choice® Gas Burner
  - Complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NOx emissions of less than 10 ng/J.

Code Compliance
  - Meets UBC, CEC and HUD National Codes.

Design-Certified by CSA Group
  - Certified at 300 psi test pressure and 150 psi working pressure.
  - Listed according to ANSI Z21.10-1 - CSA 4.1 standards governing storage tank-type gas water heaters.

CSA Certified and ASME Rated T&P Relief Valve

6-Year Limited Tank and Parts Warranty
  - For complete information, consult written warranty or go to hotwater.com.

</table>

No option available for top T&P valve.

All models have 3/4" top water connections and come standard with side loop fittings.

All models are certified from sea level to 7,700 ft. elevations.
PROLINE® ULTRA-LOW NOX HIGH CAPACITY

Fully Automatic Controls with Safety Shutoff
Heavy Gauge Steel Jacket
Blue Diamond® Glass Coating
Foam Insulation

Ultra-Low NOx Emissions
• Complies with SCAQMD Rule 1146.2 and other Air Quality Management Districts with similar requirements of 14 ng/j or 20 ppm.

Easy-To-Install
• Completely factory-assembled. Only gas, water and vent connections need to be made. All connections are located in front and top of heaters for ease-of-installation and service.

Coregard™ Anode Rod
• Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

Maximum Working Pressure
• 150 psi.

Maximum Gas Inlet Pressure
• 14” W.C.

Code Compliance

6-Year Limited Tank and Parts Warranty
• For complete information, consult written warranty or go to hotwater.com.

*Select Heat Pump Water Heater models only.

Hot Water Output, Cost of Operation, & Installation Space Required estimated based on typical applications/installations. For a more custom analysis of unique installations, visit hotwater.com and use our product selector tool.
ENERGY STAR® Qualified
- All models meet the ENERGY STAR® requirement and may also qualify for local utility and rebate programs.

Increased Energy efficiency
- Reduce water heating costs up to 73% compared to a standard electric water heater.
- Up to a 3.52 Uniform Energy Factor (UEF) conserves energy and meets ENERGY STAR® qualifications.

Dual Voltage Capable
- 208/240 VAC 60Hz capable for use in almost any residential installation.

Backup Electric Elements
- Long-lasting backup heating elements help heat water according to environmental conditions, demand, and the chosen operating mode.

Choice of Operating Modes
- Select from Efficiency, Hybrid, or Electric modes to match heating requirements to environmental conditions and hot water demand.
- Hybrid mode automatically adjusts between compressor and element, depending upon heat requirements.
- Vacation mode reduces operating costs and provides freeze protection during extended absence. Programmable up to 99 days.

Dry Fire Protection
- Control system ensures the tank is full of water during start up to prevent dry firing the heating elements.

Electronic User Interface
- User-friendly electronic interface allows easy control of temperature setting, operating mode, and communicates diagnostics.
- Advanced diagnostics convey error messages for service purposes. The last four error messages are saved in the control system memory.

Other Features
- Ideal for basements or garage installations; the compressor transfers heat to the water while dehumidifying and cooling the ambient air.
- Washable air filter is easily removed for routine cleaning.
- Accessory Inlet/Outlet Duct Kit (Part number 100234320)

Code Compliance
- Meets IBC and HUD National Codes.

10-Year Limited Warranty
- For complete information, consult written warranty or go to hotwater.com.

Male 3/4” water connections on 8” center. *Models ship with supplied insulation blanket.
†For 10-year tank and 10-year parts warranty, change “E” to “P” in the model number (example: ENT-30 becomes PNT-30).
ENL-20 is a single element configuration only. Models requiring a lower wattage than what is listed in the minimum wattage column and showing the @ symbol, will change to a “W” suffix model number.
“W” suffix models are available down to 1kW. (example: ENS-40 using 4,000 watt elements or less will become “ENS-40W”).
Top T&P is not available on the 10 year lowboy models.
Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.
Approved for Manufactured Housing

- Compliant with HUD standards for mobile homes/manufactured housing.

Side Water Connections

- Designed for easy installation in mobile home applications.

Coregard™ Anode Rod

- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

Long-Lasting Heating Elements

- Screw-in, direct immersion, 3500W/240V or 3000W/120V heating elements for maximum efficiency and compatibility with typical mobile home electrical requirements.

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

- Our residential water heaters have a solid brass, tamper resistant, enhanced-flow, ball type, drain valve.
- Uses a standard female hose fitting that allows for fast and easy draining during maintenance.

Certified to UL 174 for Household Electric Water Heaters

CSA Certified and ASME Rated T&P Relief Valve

Code Compliance

- Meets UBC, CEC and HUD National Codes.

Design-Listed by Underwriters Laboratories

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to UL 174 standards governing storage tank-type electric water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

* Models ship with supplied insulation blanket.

MHE6 models may have limited element options due to element size or other restrictions.

Available with side T&P only.

¾” water connections.
Lowboy
• Side water connections for applications where hand-room is limited.

Table Top
• Features a convenient flat porcelain surface at 36” height, providing extra “counter space” wherever installed. All plumbing and electrical connections are made through the back of the water heater. This heater is equipped with a PEX cross-linked polymer dip tube.

Point-of-Use
• Designed for low-demand, such as office lavatories or buildings with remote restrooms.

Compact
• Side-mounted plumbing and electrical connections (optional top-mounted water connections for field conversion). Designed for installation under a counter, in a crawl space or in other tight spaces.

Approved For Manufactured Housing
• All residential electric water heaters are compliant with HUD standards for mobile homes/ manufactured housing.

Enhanced-Flow Brass Drain Valve

Code Compliance
• Meets UBC, CEC and HUD National Codes.
• Meets the efficiency requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

Design-Listed By Underwriters Laboratories
• Certified at 300 psi test pressure and 150 psi working pressure.
• Listed according to UL 174 standards governing storage tank-type electric water heaters.

6-Year Limited Tank And Parts Warranty
• For complete information, consult written warranty or go to hotwater.com.

*Select Heat Pump Water Heater models only.
Hot Water Output, Cost of Operation, & Installation Space Required estimated based on typical applications/installations. For a more custom analysis of unique installations, visit hotwater.com and use our product selector tool.
PROLINE® XE TANKLESS
COMBI BOILER

Indoor Installation Only

Ultra-Low NOx Emissions
- Complies with SCAQMD Rule 1146.2 NOx Emission Requirements Of 14 ng/J or 20 PPM.

Modulating burner with 10:1 turndown ratio
- Continuously adjusts the firing rate to match demand for maximum comfort and system efficiency.

Electronic User Interface
- User-friendly electronic interface allows easy control of temperature, system setting and operating mode.
- Advanced diagnostics convey error messages for service purposes.

Power Direct Vent Design
- Two-pipe sealed combustion system uses outside air, eliminating problems caused by insufficient indoor ventilation.

Domestic Hot Water flow rate up to 4.8 gpm at 77°F temperature rise

50 PSI max pressure (boiler); 150 PSI max pressure (DHW)

Warranty
- 10-year limited warranty on heat exchanger in residential applications.
- 5-year warranty on all parts.
- Refer to hotwater.com for further warranty details

*S Models can operate up to 4,500’. For high altitude (3,000’ - 9,600’), change S to H. For liquid propane (LP), change N to P.
†For LP, minimum supply pressure is 8.0 in. W.C.
Indoor installation only.
PROLINE® XE TANKLESS
CONDENSING WITH
RECIRCULATION PUMP

ENERGY STAR® Qualified
- May also qualify for local utility and rebate programs.

Integrated Recirculation Pump
- 1/2” pipe - 200’
- 3/4” pipe - 500’

Pump Controls
- Included with heater
- Two timer settings
- Adjustable differential settings

Ultra-Low NOx Emissions
- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar
requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Indoor Models
- Include integrated temperature and pump controls with advanced diagnostics that simplify
installation and troubleshooting
- Factory-installed power cord

Outdoor Models
- Includes a wall mount temperature remote controller and advanced diagnostics to simplify
troubleshooting

Common Vent Indoor Models
Easy-Link 540P with Three Other 540H to Increase Flow Rate

Safety Features
- Exhaust & Water Temperature Safety Control.
- Overheat Cut-Off Fuse.

Internal Freeze Protection

Warranty
- 15-year limited warranty on heat exchanger in residential applications
- 5-year limited warranty on heat exchanger in commercial applications
- 5-year warranty on all parts

OUTDOOR MODEL

INDOOR MODEL

ANSI Z21.10.3  CSA 4.3
PROLINE® XE TANKLESS
CONDENSING
HIGH EFFICIENCY

ENERGY STAR® Qualified
• May also qualify for local utility and rebate programs.

Condensing Technology Provides Up to 0.95 UEF

Ultra-Low NOx Emissions
• Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Heat Exchanger
• Primary heat exchanger of the ATI/ATO-540 is constructed of a commercial-grade copper that is more resilient to erosion.
• Copper is 25x better at heat transfer than stainless steel thus stabilizing outgoing water temperature quicker and reducing pressure drop across the heat exchanger.
• Secondary heat exchanger is made of marine-grade 316L stainless steel to protect against corrosion.

Maximum Flow Rates up to 10.0 GPM
Indoor Models
• Include integrated temperature controls with advanced diagnostics to simplify installation and troubleshooting.
• Include factory-installed power cord.

Outdoor Models
• Include a wall mount temperature remote controller and advanced diagnostics to simplify troubleshooting.

Safety Features
• Air-Fuel Ratio (AFR) Sensor.
• Exhaust & Water Temperature Safety Control.
• Overheat Cut-off Fuse.

Internal Freeze Protection System

Power Vent or Power Direct Vent Design

Warranty
• 15-year limited warranty on heat exchanger in residential applications.
• 5-year limited warranty on heat exchanger in commercial applications.
• 5-year limited warranty on all parts.

Model Number* | Gas Consumption Input | Inlet Gas Pressure*** | Indoor Model UEF | Outdoor Model UEF | Connections | Sizing Chart (Number of Showers) | Dimensions in Inches | Approx Shipping Weight (lbs)

***For propane models, minimum inlet gas pressure is 8.0 in. W.C. and maximum inlet gas pressure is 14.0 in. W.C.
† Cold climate represents 70°F temperature rise
‡ Warm climate represents 50°F temperature rise
Concentric Vent Design
- Power direct vent
- Vertical or horizontal venting up to 43'”

Field Convertible from Natural Gas to Propane

Ultra-Low NOx Emissions
- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Maximum Flow Rates up to 10.0 GPM

Primary Heat Exchanger
- Primary heat exchanger of the ATI-510C is constructed of a commercial-grade copper that is more resilient to erosion.
- Copper is 25x better at heat transfer than stainless steel thus stabilizing outgoing water temperatures quicker and reducing pressure drop across the heat exchanger.

Indoor Models Only
- Include integrated temperature controls and advanced diagnostics to simplify troubleshooting.
- Include factory-installed power cords

ATI-510C Can be Used in Both Residential and Commercial Applications
- Easy-Link up to 4 units
- Multi-Link up to 20 units

Safety Features
- Air-Fuel Ratio (AFT) sensor
- Exhaust and water temperature safety control
- Overheat cut-off fuse

Internal Freeze Protection

Warranty
- 15-year limited warranty on heat exchanger in residential applications.
- 5-year limited warranty on heat exchanger in commercial applications.
- 5-year limited warranty on all parts.

*For outdoor models, change “ATI” to “ATO”. For propane models, change “N” to “P”.
**For propane models, minimum inlet gas pressure is 8.0 in. W.C. and maximum inlet gas pressure is 14.0 in. W.C.
† Cold climate represents 70°F temperature rise
‡ Warm climate represents 50°F temperature rise
PROLINE® XE TANKLESS
NON-CONDENSING
ULTRA-LOW NOx

Ultra-Low NOx Emissions
- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.

Field Convertible from Natural Gas to Propane

Maximum Flow Rates Up To 10.0 GPM

Copper Primary Heat Exchanger
- Primary heat exchange of the ATI/AT0-510U is constructed of a commercial-grade copper that is more resilient to erosion.
- Copper is 25x better at heat transfer than stainless steel thus stabilizing outgoing water temperatures quicker and reducing pressure drop across the heat exchanger indoor and outdoor models available.

Indoor Models
- Include integrated temperature controls with advanced diagnostics to simplify installation and troubleshooting.
- Include factory-installed power cord.

Outdoor Models
- Include wall mount remote control with advanced diagnostics to simplify installation and troubleshooting.

ATI-510U / ATO-510U Can Be Used in Both Residential and Commercial Applications
- Easy-Link Up To 4 Units.
- Multi-Link Up to 20 Units.

Safety Features
- Air-fuel ratio (AFR) Sensor.
- Exhaust & Water Temperature Safety Control.
- Overheat cut-off fuse.

Internal Freeze Protection

Power Vent or Power Direct Vent Design

Warranty
- 15-year limited warranty on heat exchanger in residential applications.
- 5-year limited warranty on heat exchanger in commercial applications.
- 5-year limited warranty on all parts.

*For outdoor models, change “ATI” to “ATO”. Units are field convertible from natural gas to propane with supplied conversion kit.
**When converted to propane, minimum inlet gas pressure is 8.0 in. W.C. and maximum inlet gas pressure is 14.0 in. W.C.
† Cold climate represents 70°F temperature rise
‡ Warm climate represents 50°F temperature rise
Multiple Head Construction Adds Structural Strength and More Capacity within the Same Diameters

- Interior powder coating is permanently bonded to the tank shell for ultimate protection on the water side of the tank.
- Butyl rubber parabolic diaphragm.
- Positive lock retention system controls compression in the diaphragm connection, eliminating air loss or water leaks in tank.

Same Diameters

- Electrostatically applied powder-coated exterior for maximum sunlight (UV) resistance with zinc phosphate undercoat for highest corrosion resistance.

Corrosion-resistant metal air valve.

Welded steel base.

5-year limited warranty.

5-Year Limited Warranty on Potable Expansion Tanks

1-Year Limited Warranty on Hydronic Expansion Tanks
Want To Grow Your Business?
CONSULT THE XPERT.

GROW YOUR BUSINESS with the help of an Xpert. The Xpert Product Selection Tool allows you to recommend a water heater that will meet the needs of a customer, while giving you the opportunity to upsell products that will provide additional hot water and/or perform at higher efficiencies.

CREATE HAPPY CUSTOMERS. The Xpert Product Selection Tool adds to your expertise by quickly selecting the best water heater based on your customer’s lifestyle. The Xpert allows you to immediately show a customer the facts about a water heater and why it’s the perfect fit, based on your recommendation.

Visit hotwater.com/Xpert to consult the Xpert or download the A. O. Smith App.
