NEXT HYBRID® WATER HEATER

NEXT Hybrid® is the new milestone in water heating-built for the way people ACTUALLY live and use hot water. It combines the best features of tankless and conventional technologies to create a new category of water heating.

ENERGY EFFICIENCY
- Patented circulation system delivers 90% thermal efficiency, ensuring maximum heat transfer, saving money on operating costs compared to a standard 78% efficient conventional or 84% tankless gas water heaters.
- Condensing design includes condensate drain trap

HYBRID TECHNOLOGY
- Innovative technology that surpasses existing conventional and tankless designs
- Patented water flow circulation system provides the performance of a tankless unit with extremely quick recovery
- First hour delivery of 189 gallons of hot water
- Smaller than a conventional 50-gallon gas water heater, but with twice the hot water delivery
- Whole-home solution regardless of geography

IMPROVED HOT WATER DELIVERY
- Continuous hot water shower after shower when properly sized for your home
- No minimum flow rate for ignition
- No cold water sandwich
- Delivers hot water faster than tankless
- Internal storage easily handles peak demand

SOPHISTICATED ELECTRONICS
- User-friendly integrated temperature controller with LED numeric display allows for precise temperature settings
- Multiple Lifestyle Modes - Energy Saver, Vacation and Boost modes allow for simple one-touch customization based on specific hot water needs
- Safety lock feature deters unwanted access
- Error code display for easy troubleshooting

LOWER INSTALLATION COSTS
- Utilizes 1/2” gas line standard in most homes today
- Extremely low exhaust temperature enables PVC venting for easier, more economical installations
- Less expensive venting material versus stainless steel venting used with most tankless models
- Hot and cold water connections similar to conventional tank-style models

POWER VENT DESIGN
- Uses inexpensive PVC, CPVC or ABS pipe for exhaust (solid core only).
- Canadian installations require ULCS636 listed PVC or CPVC pipe for venting.
- Can be vented vertically thru-the-roof or horizontally thru-the-wall
- 2” pipe vents up to 50 equivalent feet
- 3” pipe vents up to 100 equivalent feet

SIX YEAR LIMITED WARRANTY ON HEAT EXCHANGER, TANK AND PARTS
- For complete warranty details, consult written warranty shipped with water heater or contact A. O. Smith Water Products Company.
