Solar Water Solutions

Cirrex® Solar Water Heating Systems from A. O. Smith

The Cirrex is more than just a solar water heater—it's the ultimate solar thermal solution. High efficiency ratings, long life, and reduced carbon emissions are just a few things that make it an irresistible choice for environmentally conscious homeowners. With utility costs for water heating reduced up to 70%, the Cirrex is a wise choice for everyone.

The time has never been better to invest in renewable energy. Demonstrate your own green initiative today with Cirrex.

- Provides up to 70% of energy needed for water heating directly from the sun
- 16 solar water heating systems—one, two, or three collector configurations
- All solar water heating systems are SRCC certified OG-300
- Solar Energy Factor (SEF) ratings up to 10.1
- Eligible for federal tax credit of 30% of the total installed cost
